

Maths 2023-2024

Mr Darby

Progression Maps

The progression maps are structured using the topic headings as they appear in the National Curriculum:

Number and Place Value
Addition and Subtraction
Multiplication and Division
Fractions (including decimals and percentages)
Ratio and Proportion
Algebra
Measurement
Geometry - Properties of Shapes
Geometry - Position and Direction
Statistics

Each of the above categories has been divided into sub categories to illustrate progression in key areas. All programmes of study statements are included and some appear twice. This is indicated in the text. This occurs where:

- The statement has central relevance to more than one sub category within a topic;
- The statement has central relevance to more than one mathematics topic.

This is done to reflect the aims of the curriculum that pupils should make rich connections across mathematical ideas to develop fluency, mathematical reasoning and competence in solving increasingly sophisticated problems. However, the connections made are not intended to be exhaustive and teachers should seek to support pupils in making other connections.

*Curriculum Prioritisation movement in the progression document will be highlighted

Number Place Value

	COUNTING								
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
verbally count beyond	count to and across 100,			count backwards through	interpret negative	use negative numbers in			
20, recognising the	forwards and backwards,			zero to include negative	numbers in context, count	context, and calculate			
pattern of the	beginning with 0 or 1, or			numbers	forwards and backwards	intervals across zero			
counting system.	from any given number				with positive and negative				
					whole numbers, including				
					through zero				
explore and represent	count, read and write	count in steps of 2, 3, and 5	count from 0 in multiples of	count in multiples of 6, 7, 9,	count forwards or				
patterns within	numbers to 100 in numerals;	from 0, and in tens from any	4, 8, 50 and 100;	25 and 1000	backwards in steps of				
numbers up to 10,	count in multiples of twos,	number, forward or			powers of 10 for any given				
including evens and odd, double facts and	fives and tens	backward			number up to 1000 000				
how quantities can be	given a number, identify one		find 10 or 100 more or less	find 1000 more or less than					
distributed equally.	more and one less		than a given number	a given number					
alstributed equality.	more and one less		Than a given named	a given namber					
			COMPARING NUMBERS						
compare quantities up	use the language of: equal	compare and order numbers	compare and order numbers	order and compare numbers	read, write, order and	read, write, order and			
to 10 in different	to, more than, less than	from 0 up to 100; use <, >	up to 1000	beyond 1000	compare numbers to at	compare numbers up to			
contexts, recognising	(fewer), most, least	and = signs			least 1 000 000 and	10 000 000 and determine			
when one quantity is				compare numbers with the	determine the value of	the value of each digit

than or the same as				places up to two decimal	(appears also in Reading	and Writing Numbers)			
the other quantity.				places (copied from Fractions)	and Writing Numbers)				
		IDENTIFYING.	REPRESENTING AND ESTIM						
subitise (recognise	identify and represent	identify, represent and	identify, represent and	identify, represent and					
quantities without	numbers using objects and	estimate numbers using	estimate numbers using	estimate numbers using					
counting) up to 5.	pictorial representations	different representations,	different representations	different representations					
	including the number line	including the number line	,	'					

Number Place Value

		READING AND	WRITING NUMBERS (includ	ing Roman Numerals)		
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1000 in numerals and in words	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Understanding Place Value)
			tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks (copied from Measurement)		read Roman numerals to 1000 (M) and recognise years written in Roman numerals.	
				ING PLACE VALUE		
have a deep understanding of number to 10, including the composition of each number.		recognise the place value of each digit in a two-digit number (tens, ones)	recognise the place value of each digit in a three-digit number (hundreds, tens, ones)	recognise the place value of each digit in a four- digit number (thousands, hundreds, tens, and ones) find the effect of dividing	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers) identify the value of each
				a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions)	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (copied from Fractions)	digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places (copied from Fractions)

Number Place Value

	ROUNDING								
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
				round any number to the nearest 10, 100 or 1000 round decimals with one decimal place to the nearest whole number	round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000 round decimals with two decimal places to the nearest whole number and	round any whole number to a required degree of accuracy solve problems which require answers to be rounded to specified			
				(copied from Fractions)	to one decimal place (copied from Fractions)	degrees of accuracy (copied from Fractions)			
				SOLVING					
		use place value and number facts to solve problems	solve number problems and practical problems involving these ideas.	solve number and practical problems that involve all of the above and with increasingly large positive numbers	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above			

Addition and Subtraction

			NUMBER BONDS			
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
automatically recall (without reference to rhymes, counting or other aids) number bonds up to 5 (including subtraction facts) and some number bonds to 10, including double facts.	represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100				
			MENTAL CALCULATION			
	add and subtract one-digit and two-digit numbers to 20, including zero	add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a two-digit number and ones a two-digit number and tens two two-digit numbers adding three one-digit numbers	add and subtract numbers mentally, including: a three-digit number and ones a three-digit number and tens a three-digit number and hundreds		add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers
	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot				use their knowledge of the order of operations to carry out calculations involving the four operations

Addition and Subtraction

	WRITTEN METHODS								
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Mental Calculation)		add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction *Curriculum Prioritisation Move to Year 4	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate	add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)				
		INVERSE OPERATI	ONS, ESTIMATING AND	CHECKING ANSWERS					
		recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.	estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.			
			PROBLEM SOLVING						

	PROBLEM SOLVING									
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
EYF5	Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = □ - 9	solve problems with addition and subtraction: * using concrete objects and pictorial representations, including those involving numbers, quantities and measures * applying their increasing knowledge of mental and written methods solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)		year 4 solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	year 5 solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	Year 6 solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why Solve problems involving addition, subtraction, multiplication and division				

			MULTIPLICATION & DIVISION F	ACTS		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	count in multiples of twos, fives and tens (copied from Number and Place Value)	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value)	count from 0 in multiples of 4, 8, 50 and 100 (copied from Number and Place Value)	count in multiples of 6, 7, 9, 25 and 1000 (copied from Number and Place Value)	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and Place Value)	
		recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	recall multiplication and division facts for multiplication tables up to 12 × 12		
			MENTAL CALCULATION			<u> </u>
			write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers
		show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers)	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. ³ / ₈) (copied from Fractions)

			WRITTEN CALCULAT	ION		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (*), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods *Curriculum Prioritisation Move to Year 4 (appears also in Mental Methods)	multiply two-digit and three-digit numbers by a one-digit number using formal written layout *Curriculum Prioritisation Move to Year 5	multiply numbers up to 4 digits by a one- or two- digit number using a formal written method, including long multiplication for two- digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication
					divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context
						use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals)

	PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS									
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
				recognise and use factor pairs and commutativity in mental calculations (repeated)	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers establish whether a number up to 100 is prime and recall prime numbers up to	identify common factors, common multiples and prime numbers use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions)				
					recognise and use square numbers and cube numbers, and the notation for squared () and cubed ()	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm³) and cubic metres (m³), and extending to other units such as mm³ and km³ (copied from Measures)				

	ORDER OF OPERATIONS								
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
						use their knowledge of the order of operations to carry out calculations involving the four operations			
		INVERSE OPERA	TIONS, ESTIMATING AND	CHECKING ANSWERS					
			estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy			

	PROBLEM SOLVING									
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
	solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher *Curriculum Prioritisation Move to Year 2	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	solve problems involving addition, subtraction, multiplication and division solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion)				

	COUNTING IN FRACTIONAL STEPS								
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
		pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths					
			RECOGNISING FRACTION	5					
	recognise, find and name a half as one of two equal parts of an object, shape or quantity recognise, find and name a quarter as one of four equal parts of an object, shape or quantity	recognise, find, name and write fractions 1, 1, 2, 4, 4, and 3, 4 of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing one - digit numbers or quantities by 10. recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)				
			COMPARING FRACTIONS						
			compare and order unit fractions, and fractions with the same denominators *Curriculum Prioritisation Move to Year 4		compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1			

				COMPARING DECIMALS		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				compare numbers with the same number of decimal places up to two decimal places *Curriculum Prioritisation Move to Year 5	read, write, order and compare numbers with up to three decimal places	identify the value of each digit in numbers given to three decimal places
			ROU	NDING INCLUDING DECIMALS		
				round decimals with one decimal place to the nearest whole number *Curriculum Prioritisation Move to Year 5	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy
		E	QUIVALENCE (INCLUD	ING FRACTIONS, DECIMALS A	ND PERCENTAGES)	
		write simple fractions e.g. / of 6 = 3 and recognise the equivalence of 2/4 and 1/2.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination
				recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$)	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. ³ / _R)
					recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	
				recognise and write decimal 1 1 3 equivalents to /; /; / 4 2 4	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

		AD	DITION AND SUBTRACTION	OF FRACTIONS		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			add and subtract fractions with the same denominator within one whole (e.g. ⁵ / ₇ + ¹ / ₇ = ⁶ / ₇)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent
			7 7		recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1	fractions
					as a mixed number (e.g. $\frac{2}{5}$ + $\frac{4}{5}$ = $\frac{6}{5}$ = $\frac{1}{5}$)	
		141.0	 TIPLICATION AND DIVISIO	N OF FRACTIONS	'5 '5 '5'	
					multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form $\left(e.g. \frac{1}{4} \times \frac{1}{2} = \frac{1}{8}\right)$ multiply one-digit numbers with up to two decimal places by whole numbers
						divide proper fractions by whole numbers (e.g. $\frac{1}{3}$ ÷ 2 = $\frac{1}{6}$)

		MUL	TIPLICATION AND DIVISIO	ON OF DECIMALS		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
						multiply one-digit numbers with up to two decimal places by whole numbers
				find the effect of dividing a		multiply and divide numbers by 10, 100 and 1000 where
				one- or two-digit number by 10 and 100, identifying the		the answers are up to three
				value of the digits in the		decimal places
				answer as ones, tenths and hundredths *Curriculum		
				Prioritisation Move to Year 5		
						identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal
						places associate a fraction with
						division and calculate decimal fraction equivalents
						(e.g. 0.375) for a simple fraction (e.g. $^{3}/_{8}$)
						use written division methods in cases where the answer has up to two decimal places

			PROBLEM SOLVIN	NG		
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places	
				solve simple measure and money problems involving fractions and decimals to two decimal places. *Curriculum Prioritisation Move to Year 5	solve problems which require knowing percentage and decimal equivalents of \(^1/_2\), \(^1/_4\), \(^1/_5\), \(^1/_5\), \(^1/_5\) and those with a denominator of a multiple of 10 or 25.	

Ratio and Proportion

Statements only appear in Year	6 but should be connected to pre	vious learning, particularly fractio	ons and multiplication and division	
				Year ó
				solve problems involving the
				relative sizes of two quantities
				where missing values can be
				found by using integer
				multiplication and division facts
				solve problems involving the
				calculation of percentages [for
				example, of measures, and
				such as 15% of 360] and the
				use of percentages for
				comparison
				solve problems involving similar
				shapes where the scale factor
				is known or can be found
				solve problems involving unequal
				sharing and grouping using
				knowledge of fractions and
				multiples.

Algebra

			EQUATIONS			
EYFS	Year I	Year 2	Year 3	Year 4	Year 5	Year 6
	solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = 0 - 9 (copied from Addition and Subtraction)	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction) solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)		use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	express missing number problems algebraically
		recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)				find pairs of numbers t satisfy number sentend involving two unknowns
	represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction)					enumerate all possibility of combinations of two variables

			COMPARING AND ESTIMATING			
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year ó
	compare, describe and solve practical problems for: * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than, lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later]	compare and order lengths, mass, volume/capacity and record the results using >, < and =		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. using 1 cm² blocks to build cubes and cuboids) and capacity (e.g. using water)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm ³) and cubic metres (m ³), and extending to other units such as mm ³ and km ³ .
	sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks			
			estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)			

		MEAS	URING and CALCULATING			
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	measure and begin to record the following: I lengths and heights mass/weight capacity and volume time (hours, minutes, seconds)	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting)
			measure the perimeter of simple 2-D shapes *Curriculum Priortisation Move to Year 4	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres	recognise that shapes with the same areas can have different perimeters and vice versa

		MEASI	JRING and CALCULATI	NG	
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
recognise and know the value of different denominations of coins and notes	recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value find different combinations of coins that equal the same amounts of money solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change	add and subtract amounts of money to give change, using both £ and p in practical contexts			
	Crunge		find the area of rectilinear shapes by counting squares	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³) (copied from Multiplication and Division)	calculate the area of parallelograms and triangles calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm) and cubic metres (m), and extending to other units [e.g. mm and km].

		TELLING	THE TIME		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times.	tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24-hour clocks	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)		
recognise and use language relating to dates, including days of the week, weeks, months and years	know the number of minutes in an hour and the number of hours in a day. (appears also in Converting)	estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing and Estimating)			
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting)	solve problems involving converting between units of time	

		CONVE	ERTING		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places
			read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	solve problems involving converting between units of time	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	convert between miles and kilometres

Geometry - Properties of Shapes

		IDENTI	FYING SHAPES AND THIER	PROPERTIES		
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	recognise and name common 2-D and 3-D shapes, including: • 2-D shapes [e.g. rectangles (including squares), circles and triangles] • 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres].	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing) illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius
			DRAWING AND CONSTRUC			
			draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees (°)	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties)

Geometry - Properties of Shapes

COMPARING AND CLASSIFYING								
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
		compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles distinguish between regular and irregular polygons based on reasoning about equal sides and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons		
			ANGLES					
			recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles			
			identify right angles, recognise that two right angles make a half- turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	identify: • angles at a point and one whole turn (total 360°) • angles at a point on a straight line and ½ a turn (total 180°) • other multiples of 90°	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles		
			identify horizontal and vertical lines and pairs of perpendicular and parallel lines					

Geometry - Position and Direction

POSITION, DIRECTION AND MOVEMENT							
EYF5	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
	describe position, direction and movement, including half, quarter and three-quarter turns.	use mathematical vocabulary to describe position, direction and movement including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three- quarter turns (clockwise and anti-clockwise)		describe positions on a 2-D grid as coordinates in the first quadrant describe movements between positions as translations of a given unit to the left/right and up/down	identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed	describe positions on the full coordinate grid (all four quadrants) draw and translate simple shapes on the coordinate plane, and reflect them in the axes.	
				plot specified points and draw sides to complete a given polygon			
PATTERN							
		order and arrange combinations of mathematical objects in patterns and sequences					

Statistics

INTERPRETING, CONSTRUCTING AND PRESENTING DATA							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
		interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tables	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret information in tables, including timetables	interpret and construct pie charts and line graphs and use these to solve problems	
		ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity					
		ask and answer questions about totalling and comparing categorical data					
			SOLVING PROBLEMS				
			solve one-step and two- step questions [e.g. 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables.	solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.	solve comparison, sum and difference problems using information presented in a line graph	calculate and interpret the mean as an average
